

# City & Guilds 2391-50 Level 3 in Initial Verification of Electrical Installations

All of our training is provided to the highest standards. We take customer feedback extremely seriously, and through training hundreds of candidates, we've developed training courses that are professional, ran by experienced tutors and help our customers to gain officially recognised qualifications in several different disciplines.

Our trainers deliver our training courses in an approachable, easy-to-understand and enjoyable manner, ensuring you get the best possible training experience. Every trainer we use is fully qualified, individually accredited and will work closely with you throughout the course to ensure you get the knowledge you need.

## Course Overview

Updated to the BS7671 Amendment 2.

Learn to perform initial inspection of electrical installations with this fully accredited City and Guilds Level 3 training course.

Aimed at practising electricians who have not carried out inspection and testing since qualifying or who require some update of training before going onto other City & Guilds qualifications.

# Course Details

## Who is this course suitable for?

This course is recommended for practising electricians who are yet to perform initial inspection on electrical installations, or those with previous experience in this field looking for an update on their previous training. The City and Guilds 2391-50 Initial Verification course is also suitable for those entering the industry from other disciplines (for example other engineering fields, or those who have been working in allied trades).

## Course Aim

This qualification prepares candidates for the initial verification of electrical installation work.

## What Does the Course Cover?

- ▶ Requirements for initial verification of electrical installations
- ▶ Safety management procedures when undertaking initial verification
- ▶ Requirements for the initial inspection of electrical installation
- ▶ Requirements for testing electrical installations at initial verification
- ▶ Performing inspection testing of electrical installations

## Entry Requirements

It would be expected that candidates have a basic knowledge and understanding of electrical science and principles and experience of electrical installation work either within the electrical contracting industry or an allied trade. Anyone attending training should also have a good level of both spoken and written English.

## Assessments

This course will include a multiple choice examination (40 questions - 80 minutes), a short answer test (1 hour) and a practical test (2 hours).

## Course Certification

On successful completion of the course assessment, you will receive a City & Guilds 2391-50 qualification.

## Course Materials

We recommend purchasing a copy of the IET Wiring Regulations and IET Guidance Note 3 for use on the course. Both books can be used during the course and during the open book examinations and can be purchased at [www.testers.co.uk](http://www.testers.co.uk)

## Related Courses

- ▶ Introduction to Inspection & Testing of Electrical Installations
- ▶ City & Guilds 2391-51 Level 3 Award in Periodic Inspection and Testing of Electrical Installations
- ▶ City & Guilds 2391-52 Level 3 Award in Inspection and Testing (Combined 2391-50 and 2391-5)
- ▶ City & Guilds 2392-10 Fundamental Inspection, Testing & Initial Verification
