

# City & Guilds 2393-10 Level 3 in Building Regulations for Electrical Installations Dwellings

All of our training is provided to the highest standards. We take customer feedback extremely seriously, and through training hundreds of candidates, we've developed training courses that are professional, ran by experienced tutors and help our customers to gain officially recognised qualifications in several different disciplines.

Our trainers deliver our training courses in an approachable, easy-to-understand and enjoyable manner, ensuring you get the best possible training experience. Every trainer we use is fully qualified, individually accredited and will work closely with you throughout the course to ensure you get the knowledge you need.

## Course Overview

The Government approved Document P (electrical safety) came into effect on the 1st January 2005. For the first time the mainstream work of domestic electrical installers became subject to the requirements and procedures associated with Building Control.

The City & Guilds 2393-10 course teaches those who are already working in the electrical industry but do not currently have any formal qualifications in Building Regulations.

Anyone who works in an environment that falls under the Building Regulations will need to complete this course.

## Key Information

**Duration:** 1 Days

**Price:** £195.00 + VAT

**Booking Code:** CG2393-10

**Location:** Stockton, Watford, Hamilton

**Max Delegates:** N/A

**Contact:** 01642 987 978

# Course Details

## Who is this course suitable for?

It is suitable for those working in the building trades and others who require a working knowledge of how electrical installations in dwellings can affect the building construction.

## Course Aim

The primary aim of this knowledge based level 3 qualification is to enable practising electricians, operating in the domestic environment, to gain an understanding of how electrical installations in dwellings must comply with all relevant Building Regulations.

## What Does the Course Cover?

- ▶ Basic principles of electricity
- ▶ Classification of appliances
- ▶ Electrical changes
- ▶ Legal requirements
- ▶ IET Wiring Regulations
- ▶ Recording results

## Entry Requirements

Candidates should be familiar with installations in domestic electrical environments and should be working in the industry. It is expected that learners have a working knowledge of the following:

- ▶ Electrical safety legislation, regulations, standards and terminology
- ▶ Domestic electrical circuit installation
- ▶ Installing domestic lighting circuits
- ▶ Domestic electrical earthing and bonding requirements
- ▶ Inspecting, testing and commissioning single phase domestic electrical circuits
- ▶ Special locations and installations including kitchens
- ▶ Domestic electrical installation pre-work survey/inspection
- ▶ Basic understanding of 3 phase
- ▶ Anyone attending training should have a good level of both spoken and written English.

## Assessments

Once the learning modules are completed the course will be assessed by a multiple choice 20 question exam.

## Course Certification

For those who successfully complete the course and assessment you will receive a City & Guilds 2393-10 Certificate.

## Course Materials

Learners are required to bring with them a current copy of;

- ▶ **Essential:** Electrician's Guide to the Building Regulations

This can be purchased at [www.testers.co.uk](http://www.testers.co.uk)

## Related Courses

- ▶ City & Guilds Level 2 Certificate in Fundamental Inspection, Testing and Initial Verification (2392-10)
- ▶ City & Guilds Level 3 Certificate in Inspection, Testing and Certification of Electrical Installations (2391-10)
