

Domestic Electrical Installer Package

All of our training is provided to the highest standards. We take customer feedback extremely seriously, and through training hundreds of candidates, we've developed training courses that are professional, ran by experienced tutors and help our customers to gain officially recognised qualifications in several different disciplines.

Our trainers deliver our training courses in an approachable, easy-to-understand and enjoyable manner, ensuring you get the best possible training experience. Every trainer we use is fully qualified, individually accredited and will work closely with you throughout the course to ensure you get the knowledge you need.

Course Overview

The Domestic Electrical Installer Package combines five separate courses to enable a learner to qualify as a Domestic Electrical Installer and complete electrical work after beginning the package with no experience. Anyone who would love to work in the electrical industry will find a course package quick and hassle free. Each of the courses in the package system must be studied in order but are not completed in sixteen consecutive days. This allows learners to book the courses at a separate, convenient time for them.

Course Details

Who is this course suitable for?

This course package is suitable for those who have not completed any previous electrical qualifications and would like to get into the electrical industry. It is also an ideal course for anyone who would like to change their career and retrain in the electrical field to start a new career direction.

Course Aim

When completing a course package, you are studying for five separate courses. All of these courses have separate content, focus, examinations and qualifications. Each requires different reading and studying materials but each one follows on from the previous in a particular order that has been designed to build up through the levels by using and enhancing previous learning as you move through the courses.

What Does the Course Cover?

- ▶ Basic Electrics (3 days)
- ▶ Introduction to Inspection and Testing (2 days)
- ▶ City & Guilds 18th Edition – 2382-18 (3 days)
- ▶ City & Guilds Building Regulations 2393-10 (1 day)
- ▶ LCL Part P for Domestic Installers (5 days)

Entry Requirements

There are no pre-requisites or formal entry requirements required for the course package except an interest in the subject matter. Anyone attending training should also have a good level of both spoken and written English.

Assessments

Each of the courses in the package have their own assessments and examinations which must be passed to ensure entry to the next course in the package.

Course Certification

On successful completion of the course package, candidates will receive a certificate of attendance, certificates from the relevant awarding bodies and will also come out with fast tracked, industry recognised qualifications.

Course Materials

Each course will require additional reading. It is recommended that you get a copy of the texts required for each course. Visit the individual course pages for information on specific reading material required.

- ▶ The Basic Electrics course
- ▶ Introduction to Inspection and Testing
- ▶ City & Guilds 18th Edition 2382-18 course
- ▶ City & Guilds Building Regulations 2393-10 course
- ▶ LCL Part P for Domestic Installers course

This can all be purchased at www.testers.co.uk
