

# Safe Isolation/Handyman For non-electrical personnel

All of our training is provided to the highest standards. We take customer feedback extremely seriously, and through training hundreds of candidates, we've developed training courses that are professional, ran by experienced tutors and help our customers to gain officially recognised qualifications in several different disciplines.

Our trainers deliver our training courses in an approachable, easy-to-understand and enjoyable manner, ensuring you get the best possible training experience. Every trainer we use is fully qualified, individually accredited and will work closely with you throughout the course to ensure you get the knowledge you need.

## Course Overview

The Safe Isolation/Handyman course is designed for caretakers, handymen or members of other trades that may want to carry out small electrical tasks such as safely replacing socket and fused spur fronts, electrical accessories, replacing lamps, replacing bulbs and other small electrical applications as part of their role.
