# Course Details

## Who is this course suitable for?

For anyone responsible for the maintenance of portable appliances in a work environment or anyone who would like to take up PAT testing as a career would benefit from this training course.

## Course Aim

You will have a good understanding of the practical and theoretical aspects of PAT testing. Learners should be able to carry out basic PAT work and keep records to satisfy the Electricity at Work Regulations.

## What Does the Course Cover?

- ▶ Hazards of electricity
- ▶ Classification of appliances
- ▶ Dangers
- ▶ Legal requirements
- ▶ IET Code of Practice
- ▶ Recording results
- ▶ Using PAT testing equipment

## Entry Requirements

There are no prerequisites for this course, however, learners should have basic knowledge in math and some electrical understanding, as well as Ohm's Law. City & Guilds advise that; It is expected that candidates attempting this qualification should be familiar with electrical systems and hazards of electricity to satisfactorily complete this qualification.

Anyone attending training should also have a good level of both spoken and written English.

## Assessments

You will be required to pass a 50 question assessment to gain certification.

## Course Certification

On successful completion of the course assessment, you will receive a City & Guilds 2377-77 qualification.

## Course Materials

Learners are required to bring with them a current copy of; IET Code of Practice: Inspection & Testing of Electrical Equipment- 5th Edition, this can be purchased at [www.testers.co.uk](http://www.testers.co.uk)
