

City & Guilds 2392-10 Level 2 Fundamental Inspection, Testing & Initial Verification

All of our training is provided to the highest standards. We take customer feedback extremely seriously, and through training hundreds of candidates, we've developed training courses that are professional, ran by experienced tutors and help our customers to gain officially recognised qualifications in several different disciplines.

Our trainers deliver our training courses in an approachable, easy-to-understand and enjoyable manner, ensuring you get the best possible training experience. Every trainer we use is fully qualified, individually accredited and will work closely with you throughout the course to ensure you get the knowledge you need.

Course Overview

If a learner is new to the industry or has a basic level of electrical experience in the inspection and testing of electrical installations, this course will be a great benefit to their continuing career development. This course can be used as a first step towards the more in-depth 2391-52 course.

Course Details

Who is this course suitable for?

The course has been designed for anyone wanting to carry out electrical inspection, testing and initial verification of domestic electrical installations as well as those with existing electrical knowledge and those working in the industry who have not yet got electrical qualifications.

Course Aim

The City & Guilds Certification in Fundamental Inspection, Testing and Initial Verification course aims to provide learners with the necessary skills for practical inspection and testing of newly installed circuits.

What Does the Course Cover?

- ▶ Practical and theoretical learning relating to the inspection and testing of new fixed wiring in electrical installations
- ▶ Safe working and isolation practices
- ▶ Use of the test equipment
- ▶ Associated inspection and testing documentation

Entry Requirements

There are no prior qualifications required to attend this course. We do recommend that those interested in this course have basic knowledge and understanding of electrics or experience in electrical installation work and the 2382-18 18th Edition course would prove helpful, though it is not essential. Anyone attending training should also have a good level of both spoken and written English.

Assessments

This course includes a 50 question examination and a 2 hour practical test. Both theoretical and practical assessments require a pass mark to gain the course qualification.

Course Certification

On successful completion of the course assessment, you will receive a City & Guilds 2392-10 qualification.

Course Materials

We recommend purchasing a copy of the IET Wiring Regulations 18th Edition and IET On-Site Guide 2018 for use on the course. Both books can be used during the course and during the examinations and can be purchased at www.testers.co.uk

Related Courses

- ▶ Introduction to Inspection & Testing of Electrical Installations
- ▶ City & Guilds 2391-50 Level 3 Award in Initial Verification of Electrical Installations
- ▶ City & Guilds 2391-51 Level 3 Award in Periodic Inspection and Testing of Electrical Installations
- ▶ City & Guilds 2391-52 Level 3 Award in Inspection and Testing (Combined 2391-50 and 2391-5)
