

# **Practical Introduction To Safe Operation** of High/Low Voltage Switchgear

All of our training is provided to the highest standards. We take customer feedback extremely seriously, and through training hundreds of candidates, we've developed training courses that are professional, ran by experienced tutors and help our customers to gain officially recognised qualifications in several different disciplines.

Our trainers deliver our training courses in an approachable, easyto-understand and enjoyable manner, ensuring you get the best possible training experience. Every trainer we use is fully qualified, individually accredited and will work closely with you throughout the course to ensure you get the knowledge you need.

# **Course Overview**

Learn the basics of safely performing switching on high and low voltage electrical systems with this hands-on, practical training course. Suited to those with little to no experience and would like an introduction into working on power systems, this course is a great stepping stone into our other more advanced AP / SAP switching courses.

# **Key Information**

**Duration: 3 Days** 

Price: £699.00+ VAT

**Booking Code:** HVS06

**Location:** Stockton

**Max Delegates: N/A**

## **Course Details**

#### Who is this Course Suitable For?

Designed for those with little or no previous experience in the field, although should have a keen interest.

#### **Course Aim**

This course will outline the principles behind performing switching on power systems up to and including 15kV, giving you a thorough understanding of the process plus practical experience of actually performing switching operations.

#### **What Does the Course Cover?**

- Operational Procedures
- Single End Drive Motor Isolations
- Transformer Isolations
- Circuit Main Earth Application **Procedures**
- Additional Earth Application Procedures
- Electrical Safety Documents
- Key Safes and Multi Hasp Locking Systems
- Abridged High Voltage Safety Rules
- Course Review

#### **Entry Requirements**

Although there no specific requirements for this course and it is suitable for both electrical and non-electrical personnel, an understanding of the basics of electricity and electrical systems would be an advantage. Anyone attending training should also have a good level of both spoken and written English.

#### **Assessments**

There are no assessments on this course.

#### **Course Certification**

You will receive a PASS Certificate of Attendance.

#### **Related Courses**

 HVSO1 - Authorised Person Training - Limited Operation of High Voltage Power Systems

#### **Find Out More**

If you are interested in this course and would like to find out more about the content, or the facilities available to you, then contact the training centre. We are always happy to answer all your questions. Or visit the course pages on our dedicated electrical training website:
