

City & Guilds 2391-52 Level 3 in Inspection & Testing (Combined 2391-50 & 2391-51)

All of our training is provided to the highest standards. We take customer feedback extremely seriously, and through training hundreds of candidates, we've developed training courses that are professional, ran by experienced tutors and help our customers to gain officially recognised qualifications in several different disciplines.

Our trainers deliver our training courses in an approachable, easy-to-understand and enjoyable manner, ensuring you get the best possible training experience. Every trainer we use is fully qualified, individually accredited and will work closely with you throughout the course to ensure you get the knowledge you need.

Course Overview

Updated to the BS7671 Amendment 2.

This electrical training course combines together the City and Guilds 2391-50 Level 3 Award in Initial Verification and the City and Guilds 2391-51 Level 3 Award in Periodic Inspection to deliver a comprehensive programme covering both disciplines.

With this qualification, you'll gain the skills and preparation needed for initial verification and period inspection (and associated testing) of electrical installation work.

Key Information

Duration: 6 Days

Price: From £995.00 + VAT

Booking Code: CG2391-52

Location: Stockton, Watford

Max Delegates: N/A

Contact: 01642 987 978

Course Details

Who is this course suitable for?

This course is recommended for practising electricians who are yet to perform initial inspection on electrical installations, or those with previous experience in this field looking for an update on their previous training.

Course Aim

During the City and Guilds Inspection and Testing course you will be working in both a classroom environment and also gain hands-on, practical experience with our in-house, purpose-built electrical installation training bays to gain full understanding of the subject matter.

What Does the Course Cover?

- ▶ Understand the requirements for inspection and testing
- ▶ Understand safety management procedures when undertaking inspection and testing
- ▶ Understand the requirements for the inspection of electrical installations
- ▶ Understand the requirements for testing electrical installations
- ▶ Perform inspection and testing of electrical installations

Entry Requirements

There are no prior qualifications required to attend this course. We do recommend that those interested in this course have basic knowledge and understanding of electrical science and/or principles/experience of electrical installation work. Anyone attending training should also have a good level of both spoken and written English.

Assessments

This course includes a multiple choice examination (40 questions - 80 minutes), a short answer test (1 hour) and a practical test (2 hours).

Course Certification

On successful completion of the course assessment, you will receive a City & Guilds 2391-52 qualification.

Course Materials

We recommend purchasing a copy of the IET Wiring Regulations and IET Guidance Note 3 for use on the course. Both books can be used during the course and during the open book examinations and can be purchased at www.testers.co.uk
