

Safe Use of Electrical Equipment in Hazardous Areas

All of our training is provided to the highest standards. We take customer feedback extremely seriously, and through training hundreds of candidates, we've developed training courses that are professional, ran by experienced tutors and help our customers to gain officially recognised qualifications in several different disciplines.

Our trainers deliver our training courses in an approachable, easy-to-understand and enjoyable manner, ensuring you get the best possible training experience. Every trainer we use is fully qualified, individually accredited and will work closely with you throughout the course to ensure you get the knowledge you need.

Course Overview

This course is designed for operatives working in Hazardous area environments. The course provides a theoretical overview of the hazards associated with installing, operating and maintaining electrical equipment associated with Hazardous Areas.

Course Details

Who is this Course Suitable For?

The Hazardous Areas course is ideally suited to personnel (particularly within the oil and gas industry) in a position within a company who are responsible for undertaking work activities within areas which contain Hazardous gases, Hazardous dusts or vapours which could be potentially explosive.

Course Aim

This course aims to provide personnel whose work involves working within potentially explosive environments, with the knowledge to ensure that their operations are undertaken safely and with the required level of competence.

What Does the Course Cover?

- ▶ Petro chemical processing plants
- ▶ Refining plants
- ▶ Offshore Platforms
- ▶ Petrol Filling Stations
- ▶ Paint Spraying Facilities
- ▶ Gas Works
- ▶ Pressurisation (EExP)
- ▶ Intrinsic Safety (IS)
- ▶ Hazardous Dust Areas

Entry Requirements

Candidates should possess a strong working knowledge of the potential dangers associated with Hazardous Areas. Anyone attending the training programme should have a good level of both spoken and written English.

Assessments

The assessment for this programme is a written examination.

Course Certification

Candidates who successfully complete the course and written assessment will receive a PASS certificate of competence. Candidates who fail or do not wish to undertake the written assessment, will receive a PASS certificate of attendance.
