# Course Details

## Who is this course suitable for?

This course is designed for Skilled Persons and Prospective Persons in Charge, who have been appointed to work on company specific mechanical systems and toward specific safety rules.

## Course Aim

Delegates will gain a greater understanding in compliance with legislation and how to better communicate with colleagues and management as well as improving safe working procedures.

## What Does the Course Cover?

- ▶ Requirements of statutory regulation
- ▶ Roles and duties of key personnel - AP Mechanical - P in C Mechanical and Skilled Persons Mechanical
- ▶ An introduction to mechanical safety rules and procedures
- ▶ Review of system components and associated dangers
- ▶ Mechanical systems risk assessment
- ▶ Safe methods of isolation
- ▶ Creating, documenting and enforcing safe working procedures

## Entry Requirements

Delegates attending the course must have the relevant level of experience of Pressure Systems and mechanical principles and theory. Anyone attending training should also have a good level of both spoken and written English.

## Assessments

Delegates complete practical exercises which include the management, application and control of documentation as well as hands on exercises where possible. The assessment is by written paper on an isolation documentation exercise.

## Course Certification

On successful completion of the course assessment you will receive a Certificate of Competence.

## Course Materials

Delegates can bring with them any materials used by their own employer/ company, this includes copies of risk assessments or management systems so that they are able to use real life examples and gain insight into how their existing protocol fits into the context of the course.
