

High Voltage Cable Sheath Testing

At PASS training we are committed to delivering training to the highest standards. We value customer feedback and use it to continually refine our courses. Having trained hundreds of candidates, our programs are designed to be professional and led by experienced tutors. Our goal is to equip our customers with the knowledge and skills to achieve officially recognized qualifications across a range of disciplines.

Our trainers deliver courses in a clear, approachable, and enjoyable way, ensuring you have the best possible learning experience. Every trainer is fully qualified and accredited, and they work closely with you throughout the course to ensure you gain the knowledge you need.

Course Overview

This course covers the theoretical and practical principles of sheath testing on high voltage distribution systems, with emphasis placed upon safety requirements and interpretation of test results. Safety in electrical testing at work INDG354 (rev1, HSE).

Key Information

Duration: 1 Day

Price: £350.00+ VAT

Booking Code: HVTC5

Location: Stockton

Max Delegates: 6

Contact: 01642 987 978

Course Details

What Does the Course Cover?

- ▶ Introduction
- ▶ Electrical Insulation
- ▶ Safety Requirements
- ▶ Sheath testing
- ▶ Cable fault testing procedure
- ▶ High Voltage Cable Insulation Testing Protocol
- ▶ Sheath test recommendations
- ▶ Insulation testing
- ▶ Practical Exercises & Tutorials

Entry Requirements

Electrical Engineers/Technicians responsible for carrying out or supervising high voltage sheath testing. If the candidate is working on anything other than new cable installations. It is recommended that candidates should be authorised to receive sanction for test documents (HVS05) before taking this course.

You should be responsible, or are going to be responsible for carrying out Cable Sheath Testing or will be a supervisor responsible for overseeing this type of work.

Assessments

You will be expected to complete a written examination as well as take part in a practical examination during this course.

Course Certification

Upon successful completion of the course, you will receive a PASS Certificate of Competency in HV Cable Sheath Testing.

For candidates who decide not to undertake the assessments or are unsuccessful when taking the assessments, you will receive a certificate of attendance instead.

What's included (Coffee, lunch, etc)

Lunch, tea, and coffee are provided throughout the course to ensure a comfortable learning environment.
